Professional Summary

- Full stack software developer for more than 10 years with interest in writing clean, high performance and highly maintainable code using new tools and technologies.
- In depth knowledge in architecting and designing large enterprise solutions using DDD and Micro Services and Agile software development practices.
- Professional Knowledge in .Net (C#, ASP.NET, EF, ADO, WCF, Windows Service, ...), TSQL, SQL-Tuning, NoSQL and good knowledge in Front End technologies (JS, JQuery, ReactJS, CSS, ...)
- Experienced Product Manager with a demonstrated history of working in the computer software industry. Strong product management professional with a Bachelor's degree focused in Computer Software Engineering from Sadra university

Skills

- Issue resolution
- Project scheduling
- Cost control
- Product development
- Relationship building
- Staff training/development
- Timeline management
- Project development
- Data management
- API design knowledge
- Performance and scalability optimization
- Troubleshooting and debugging
- Project documentation
- Excellent diagnostic skills
- Team leadership
- Dominate The C#
- Dominate ASP.Net
- Dominate MVC

- Dominate WCF
- Dominate Windows Services
- Dominate Web API
- Domain Driven Design Pattern
- Dominate ReactJS
- Dominate JavaScript
- Dominate JQuery
- Dominate React Store Management
- Dominate Html5 and CSS3
- Dominate Micro Services
- Dominate Micro ORM
- Dominate Entity Framework
- Dominate Architecting And Designing Large Enterprise Solution
- Dominate The SQL Server
- Dominate SQL Administration
- Dominate SQL Tunning

Work History

Senior Project Manager 01/2016 to Current

Chargoos- Tehran, Tehran, Iran

Directed multi-disciplinary teams within a matrix environment to plan and execute projects from inception through implementation in accordance with the company's Software Development Life Cycle (SDLC) Methodology. Project team sizes ranged from 5 to 15 members.
