ABOUT ME

As a highly enthusiastic person who thrives on a challenge, I am eager to join a team of people with whom I can share my passion for technology and expand my knowledge by learning new techniques, skills and standards in the software development industry. I have currently finished my Bachelor of Information Technology, majoring in Software Development and Applications at The University of Newcastle achieving a Grade Point Average of 6.4 out of 7. My long tenure in customer service at Woolworths Supermarkets is indicative of my strong work ethic, reliability, autonomy and ability to work with clients and work colleagues. My mid-term goal is to become a senior developer in the field of software development. Thank you for considering my application and I look forward to hearing from you.

KEY SKILLS

- Excellent communication skills.
- Exceptional time management.
- Outstanding customer service skills.
- Ability to work independently as well as team environment.
- Capacity to liaise with people of all ages.
- Ability to work efficiently unsupervised.
- Punctual, reliable, trustworthy and loyal.
- Ability to learn new policies and procedures quickly and effectively when the circumstances call for additional learning.
- Highly developed organizational skills.
- Strong analytical, design and problem-solving skills.
- Ability to work a rotating roster.

TECHNICAL SKILLS

- Extensive knowledge in Object-Orientated methodology.
- Ability to develop software and web applications to system requirements.
- Proficient in software development methodologies including Agile and Waterfall.
- Proficient in using SQL Server Integration Services (SSIS).
- Proficient in using Azure Cloud computing.
- Excellent front-end development skills.
- Excellent debugging skills, troubleshooting, and diagnosing issues.
- 2+ years in developing software and applications using .NET framework including WPF, ASP.NET WebForms, Winforms, ASP.NET MVC, ADO.NET, and LINQ.
- Experienced in using Bootstrap.
- 2+ years developing relational databases using Microsoft SQL server.
- 2+ years developing efficient SQL queries and stored procedures.
- Advanced knowledge of HTML5, Transact-SQL, CSS3, XSL, XML, Java 8+, C#, C++, Jython (Implementation of Python for the Java platform), Python 3+, JavaScript, PowerShell, JSON, jQuery, and R.
- Experienced in JavaScript libraries such as Node.js.
- JavaScript unit testing through libraries such as Mocha and Chai.
- Ability to design and develop responsive web applications.

- Ability to design and develop responsive mobile applications for Android and Windows platforms.
- Strong experience in version control (Git).
- Experienced with Internet Information Services (IIS)
- Experienced in developing thread management software.
- Strong thread management skills using programming constructs Semaphores and Monitors.

ACADEMIC ACHIEVEMENTS

- Achieved a Grade Point Average of 6.4 out of 7 for the Bachelor of Information Technology at the University of Newcastle.
- Developed a ASP.NET MVC Web Application for the University of Newcastle. URL: <http://www.myuniplanner.com>
- Placed on the Faculty Commendation List for 2017 (See details below).
- Placed on the Faculty Commendation List for 2018 (See details below).

The Faculty Commendation List recognises undergraduate students who have achieved an annual Weighted Average Mark (WAM) of over 77 in their studies.
