## EXPERIENCE

### Interior Designer

*Sydney / March 2019 - Current*

### Interior Designer - Vessel Furniture

Beyond my skills and experience below my role at Vessel Furniture has developed into an advisory role working alongside designers to create the perfect design.

- Design mood boards for high end clients in retail, commercial and residential industries
- 3D photorealistic renders to showcase design concepts for visualisation of customisable options using AutoCAD, SketchUp and Photoshop
- Participate in selection of FF&E colour palettes, material presentations and generate specifications
- Source, select and engage fabric manufactures for Vessel's product range
- Develop concepts for pre-designed furniture packages
- Create and manage social media content adhering to a strict planned layout
- Single point of contact for factories and suppliers across Asia and Europe
- Create content for company's website using Indesign & Illustrator
- Appropriately assess and select furniture to meet clients requirements
- Be a 'thinking partner' to our clients to enable them to realise their vision
- Prepare and review newsletters using mailchimp
- Manage and coordinate international team of copywriters & developers

### Achievements

- Championed the implementation of a project management software improved firm workflow efficiency; and
- Handled all composition, color, illustration, and branding for website. Simplistic design led to 15% greater user engagement.
