

# PROFILE

# GRACE WEST

Ever since I was a child I have always tried to make the space around me look cohesive, feel warmer and have better synergy. Throughout my extensive hospitality career this outlook has shifted to commercial interiors and my obsession with hospitality and business design grew. After recently finishing my bachelors degree in Interior Design (commercial) I now have the skills required to fulfil the vision I have for hospitality and commercial design. I love the design process and really enjoy working with people from all walks of life. When working in a team environment I like to ensure individual strengths are highlighted to achieve the best result and I want to produce work that over delivers. I'm a fast learner and adapt to new situations and people well.
