

# MATHIEU BEDARD

B.D. IN INTERIOR ARCHITECTURE

## PROFILE

I decided to take my post-secondary studies abroad in 2016, to challenge myself to live independently, diversify my understanding of the world, and to personally develop myself. I'm passionate about design as I believe exceptional design is not only aesthetic but focuses on augmenting users experience through understanding context, creating new engaging experiences. I hope my designs will unlock new sensory emotions through tangible and intangible characteristics.
